During October and November, the City of Dallas hosted a series of community meetings focused on rezoning in the Oak Cliff Gateway. At these meetings, the city requested input on proposed zoning changes in an area roughly bounded by Greenbriar Lane, Beckley Avenue, Interstate 30 and the Trinity River. The community requested that the City take a broader look at the entire Gateway to plan for redevelopment and revitalization of the area. As a result, the City has scheduled additional meetings to discuss amendments to the future land use plan for the Oak Cliff Gateway, prior to continuing a discussion about any proposed zoning changes.

You are invited to these additional meetings to discuss future land use for the area, and give input into the type of developments you would like to see in the Oak Cliff Gateway. Each meeting will cover different issues. The area being discussed is marked on the map to the left with diagonal lines.
